

The Year 6 Summer curriculum will also include some maths and English revision as well as the school Health Week.

### **English**

We will be completing our work on Daniel Pennac's book 'The eye of the Wolf' and then moving onto Private Peaceful written by Michael Morpurgo.

### **Personal, Social & Health Education**

will include our class assemblies and the 'puberty and emotions' work.

This term in **science** we will be learning about 'evolution and inheritance', including some famous scientists. We will discover theories about variation and survival of plants and animals, and investigate plant growth.

**Ethics and world religions** study will ask 'What matters most to Christians and Humanists?' and explore our values and codes for living.

## **Year 6 Topic Map Summer 2019**

**Music** lessons will be all about melody and harmony.

**Modern Foreign Languages** lessons will focus on vocabulary to talk about healthy living then countries and nationalities.

### **Mathematics**

This term we will be learning about continuing to develop our skills through a range of real-life problem-solving skills

### **Computing**

We will further develop our programming skills through the next stage of our Scratch curriculum.

After completing our landscapes in **art**, we will be heading into a unit in **design and technology** where we will be developing skills in textiles.

### **History/Geography**

After we bring our topic on the Aztecs to a close, we look forward to our geography unit on rivers and mountains. We will compare great rivers such as the Amazon with the River Severn and look at how mountains are formed, why people climb them and the impact of erosion.
